EXPERIENCE

Virse AI – AI-native Design Infrastructure

Co-Founder / Chief Product & Design Officer / GTM; New York, NY

May 2025 - Present

- Took Virse **from concept to beta launch in 7 months**, securing **10+ paid enterprise customers** across e-commerce, industrial appliances, cosmetics and creative studios; led 0-1 product strategy and design for an AI-native creative platform for professional design teams.
- Designed and shipped the core **human-AI creative workflow**, including an intelligent canvas for multimodal search, generation, editing, asset management, and iterative creation.
- Built direct feedback loops with **paid enterprise customers and professional design teams**, translating real-world usage into product roadmap, usability improvements and market positioning.
- Drove **founder-led GTM** across early-user acquisition, product launches, demos, and community activation, including a 250+ RSVP NYC Tech Week event for designers and creative professionals.
- Helped raise **\$2.7M in pre-seed funding led by ZhenFund**, shaping product vision, category positioning, investor narrative, and early traction story.

Veritas Technologies – Enterprise Data & Cybersecurity (acquired by Cohesity)

UX Designer; New York, NY

January 2023 - December 2024

- Led product design across **20+ shipped enterprise workflows** for Veritas' cyber-resilient multicloud products, serving a customer base that includes **87% of the Fortune Global 500**.
- Designed complex, security-critical experiences spanning **ransomware protection, multi-person authorization, disk encryption, performance monitoring, and AI-assisted workflows** across hybrid-cloud environments.
- Partnered with **PM, engineering, research, and cross-functional leaders** to translate complex infrastructure requirements and customer insights into scalable product experiences.
- Led research-informed redesigns of key appliance workflows, aligning product, design, and engineering on **UX improvements and product strategy**.

SELECTED PROJECTS

Argo data marketplace — Privacy-preserving AI data infrastructure

- Led end-to-end product design for a confidential data-sharing platform using blind learning, enabling **healthcare customers at MITRE** to securely collaborate across sensitive datasets.

Calmspace, Intelligent mental well-being app

- Designed a mobile experience for technology-induced anxiety and digital well-being; winner of A'Design Award, MUSE Design Awards, London Design Awards.

HEAR ME — AI accessibility assistant

- Designed an AI avatar translating between spoken and sign languages for people with hearing loss; winner of **Red Dot Design Award**.
